

We recognise that our day to day activities impact on the environment. We wish to minimise any harmful impacts wherever and whenever practicable, and will work to secure business benefit from environmental protection.

print.uk.com is committed to the prevention of pollution and will work to minimise the impact of its operations through a continuous improvement program:

In particular, we will:

- Comply with all relevant existing environmental legislation and other requirements
- Reduce harmful emissions wherever practicable
- Seek to reduce consumption of materials in our operations and promote recycling and the use of recycled goods
- Manage energy and water usage wisely in all our operations
- Incorporate environmental considerations into the procurement of goods and services

To achieve these we will:

- Set environmental objectives based on the significant environmental aspects identified within the business, and allocate sufficient management resources to ensure the effective implementation of the policy
- Communicate this policy to all employees and those working on our behalf
- Measure, monitor and report on our environmental performance and progress against objectives on an annual basis
- Review our policy on a regular basis to take account of new developments in environmental management and legislation
- Perform audits of our activities to ensure compliance with the

company requirements, legislation and policy requirements

print.uk.com recognises that the effective implementation of this policy represents an opportunity to improve our performance by reducing environmental risks and impacts, and increasing the efficiency of our operations.

Since 2008 we have been accredited with ISO 14001 and have an externally audited Environmental Management System in place; which ensures that over 90% of our waste is recycled. We are also monitoring our electricity consumptions and actively reducing wastage by using energy saving light bulbs, motion sensor activated lights, not leaving equipment on standby etc.

We also like to widen the scope and extend our Environmental Policy into the realm of Corporate Social Responsibility; as that is part of the environment as well. We like to give back to the local community via cost-price Printing Services for Non-Profit Organisations and also actively donate to various charitable organisations. These currently include Amnesty International, Down's Syndrome Association, The Salvation Army, Crisis and CAFOD.
